

Building for the future with

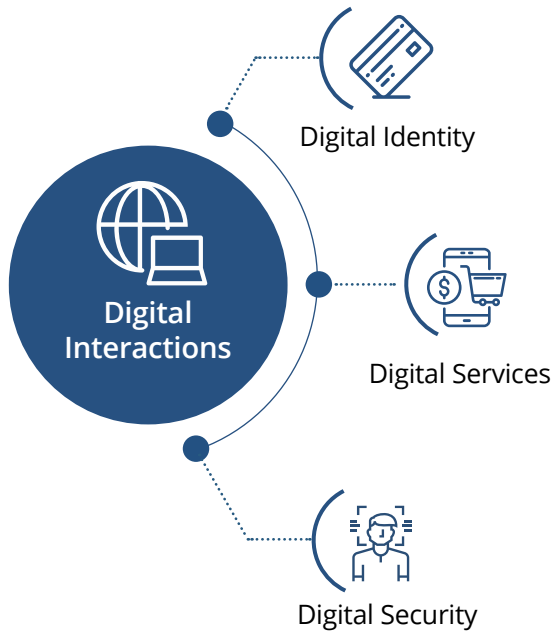

Digital Transformation

Explore how Pangea helps government and business organizations to create digital interactions for millions of people worldwide.

www.pangea-it.com

Full Suite of **Digital Transformation Solutions**

The world is changing faster than ever before and Pangea helps government and enterprise organizations to keep pace by driving innovation with the widest range of digital transformation technologies.

Digital Identity

Includes all types of government records, biometric ID cards and e-travel documents.

Digital Services

Secure personal biometric debit cards and mobile e-payment solutions.

Digital Security

Multi-sensor operational security platform with complete incident management capabilities.

Customer **Benefits**

Pangea is committed to the socio-economic development of emerging markets by fostering the digital transformation of personal identity and e-Government services. We partner with technology leaders, government agencies, and public financing institutions to drive social inclusion and create long term sustainable economic growth.

Increase Governance and Transparency

Improve planning of social services to ensure efficient resource allocation and improved governance.

Increase Tax and Reduce Costs

Improve collection of taxes and fees, reduce operational costs and eliminate invalid payments to non-eligible citizens

Expand Accessibility to Public Services

Increase citizen inclusion by making it easy for citizens to access and pay for vital public services and benefits.

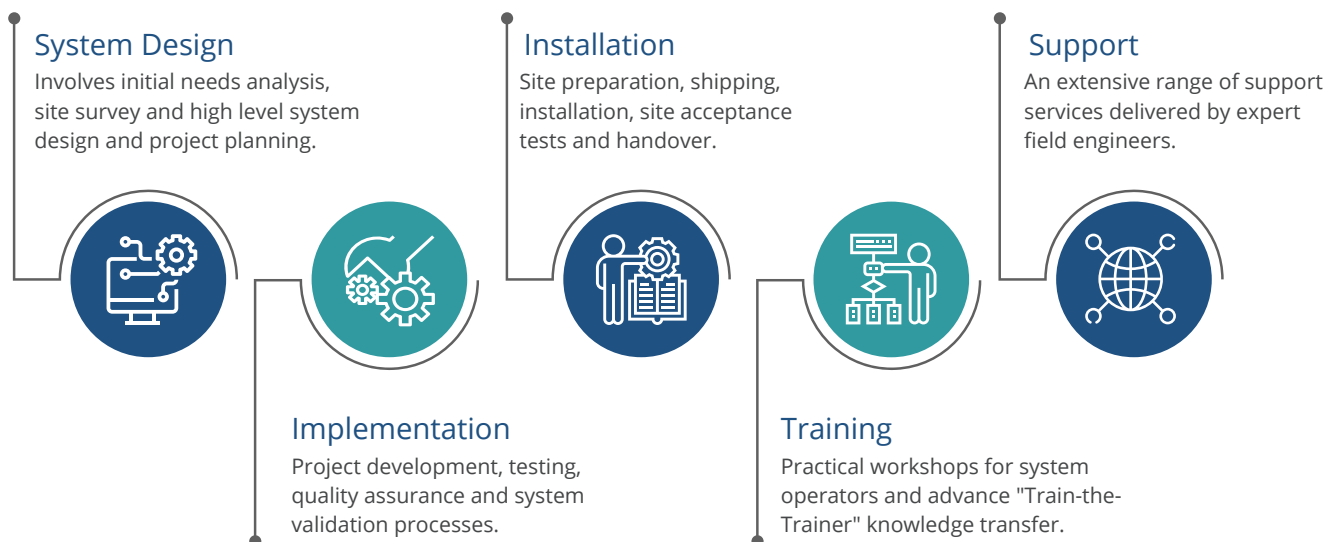

Enhance Public & Citizen Safety

Fight crime and increase public safety with video analytics, multi-sensor incident management and AFIS/ABIS investigation tools.

Global Industry Expertise and Technology Know-how

Pangea specializes in the delivery of large scale digital transformation projects. Our disciplined project management methodology ensures we meet and exceed customer requirements on time and within budget.
